Administrative Action

AMENDMENT TO REINSTATEMENT
ORDER OF MAY 11, 1988

This matter was opened to the New Jersey State Board of Dentistry upon the filing of an Application for Modification of the Board's Reinstatement Order of May 10, 1988 by Pamela Mandel, Esq., counsel for Gordon J. Stenz, D.D.S. In support of this application the Board reviewed a letter report from Dr. Edward A. Fox, Dr. Stenz's treating therapist, and a letter report from Dr. Frederick Rotgers, Staff Clinician of the New Jersey Impaired Dentists Program in regard to urine monitoring.

The Board having thoroughly reviewed the entire record before it and having determined that good cause exists for the entry of an amendment to the Reinstatement Order,

IT IS ON THIS 20th DAY OF February, 1990,
HEREBY ORDERED THAT:

1. Dr. Stenz shall be permitted to prescribe controlled dangerous substances commencing on April 1, 1990, in accordance

with the following terms and conditions:

- a). Dr. Stenz shall obtain and exclusively employ prescription pads which provide triplicate copies of each prescription and which are consecutively numbered.
- b). Dr. Stenz shall provide the original of the prescription to the patient, he shall place one copy in the patient's chart, and he shall submit one copy of all prescriptions to the Board on a monthly basis. Dr. Stenz shall be required to account for each consecutive number, regardless of whether the particular description was voided or not used for any purpose whatsoever.
- c). Dr. Stenz shall submit copies of these prescriptions in consecutive order no later than the fifth (5th) day of each month for all prescriptions written in the previous month, and these shall be submitted to William Gutman, Executive Director of the Board, at 1100 Raymond Boulevard, Room 510, Newark, New Jersey 07102, so that they may be reviewed and monitored by the Board.

2. All other terms and conditions of the Reinstatement Order entered on May 11, 1988 which are not inconsistent with the within Order shall continue in full force and effect.
